

SMART LED STRIP CONTROLLER

Dual White LED Strip Controller

- 
Color temperature adjustable
- 
Dimmable control
- 
2.4G RF wireless transmission technology
- 
Remote control
Control distance 98.4ft
- 
Smartphone APP control
(2.4GHz gateway is needed)
- 
Support third party voice control
(2.4GHz gateway is needed)

Technical Specifications:

- Model No.: FUT035
- Working Voltage: DC12V~24V
- Output Max: 12A/Channel
- Total Output: Max 12A
- Working Temperature: -20~60°C
- RF: 2.4GHz
- Transmitting power: 6dBm
- Max Controlling Distance: 98.4ft
- Output Connection: Common anode

V- V+ Input: DC12V/24V

Introduction

Controller adopt the widely used 2.4GHz wireless technology with the features of low power consumption, long signal transmitting and strong anti-interference, etc. Controller has auto-transmitting and auto-synchronizing function. Widely used on the controlling of hotel lighting and home lighting.

Signal transmitting

One strip controller can transmit the signals from the remote control to another controller within 98.4ft as long as there is a strip controller within 98.4ft the remote control distance can be limitless.

Link/Unlink

Compatible with these remote controls (Purchased separately)

 Lighting can be working after linking with remote; for more details, pls read the remote instruction.

Attention

1. Please check whether the input voltage of the constant voltage power supply is in accordance with the controller, and please check the connection of both the cathode and anode, otherwise the controller will be broken.
2. Please don't connect wires with power on. Please turn on again only when it is in right connection and no short circuit.
3. Please do not use the controller in the place with widely range metal area or strong electromagnetic wave nearby, otherwise, the remote distance will be seriously affected .
